

MONTECUCCO ROSSO

Montecucco rosso is made of 80% of Sangiovese grapes and 20% of Cabernet Sauvignon and Merlot. Two vines that have found in our environment very suitable growing conditions.

After a careful fermentation at controlled temperature and a rather long maceration, the finishing is made in French oak tonneaux for 6 months and then completed with 4 months of bottle ageing.

This wine is fragrant with a good body and structure. The fruity bouquet melts in sweet wood fragrances. This wine is excellent with delicate first courses, cereal soups, stewed meats white meats and barbecued meats.

Alcohol by volume: 14% vol
